# **About This Qualification**

This qualification is designed to give learners an understanding of the workings of supply chains and the processes involved in its operation.

There are no formal entry requirements however, in order to benefit from undertaking the qualification learners should possess communication skills sufficient to allow them to address the assessment requirements.

Assessment should be through the production of a portfolio of evidence presented for assessment by a suitably qualified Assessor. Mandatory assessment methods, where applicable, can be seen within the individual unit details.

Those who undertake this qualification may wish to undertake further qualifications at a higher level in order to further develop their knowledge and skills within the warehousing industry.

# **Qualification Overview**

Qualification Structure	1 unit from Group A and a further 20 credits from Group A or Group B
Assessor Qualification Required (please check details of appropriate Assessor qualifications later within this document)	No
IQA Qualification Required (please check details of appropriate IQA qualifications later within this document)	No

## **About SFEDI Awards**

SFEDI Awards was founded in 2007 creating the first dedicated Awarding Organisation specialising in business enterprise and business support, a standing still enjoyed to this day within the UK.

Our qualifications are built on the extensive research that underpins the SFEDI® National Occupational Standards and the expertise of the Institute of Enterprise and Entrepreneurs, the UK's only professional Institute dedicated to enterprise.

With our qualifications having been designed to be flexible to meet the wide range of demand within enterprise learning, we recognise the needs of industry to develop enterprising and entrepreneurial individuals to support the sustainability and growth of business and the wider community.

As the only dedicated UK Awarding Organisation, SFEDI Awards designs and develops a range of bespoke business enterprise and business support qualifications that are delivered through members of our both UK based and international delivery network.

Within this we also develop and publish best practice materials and resources to support the delivery of our qualifications to a high standard to ensure that learners gain all they require when either starting or progressing their enterprise journey.

## **Customer Feedback**

We are always keen to understand learners and centres thoughts on the content of all aspects of our qualifications and welcome feedback. This can be done by emailing us at customerservices@sfediawards.comand indicate in the header field, 'Customer Feedback'.

## The Regulated Qualifications Framework (RQF)

The Regulated Qualifications Framework (RQF) is the vehicle for regulating qualifications within England and vocational qualifications within Northern Ireland. The framework provides a single, simple system for cataloguing all qualifications regulated by Ofqual by both level and size.

Qualifications on the Regulated Qualifications Framework (RQF) have both a level and a size allocated to them in order to support individuals in making an informed choice about the most appropriate qualification for them.

Each RQF qualification title contains the following:

- ✓ The level of the qualification (from entry level to Level 8)
- ✓ The size of the qualification (Award/Certificate/Diploma)
- ✓ Details indicating the content of the qualification

Each qualification has a published structure setting out what must be achieved by an individual in order to demonstrate their knowledge and skills in order to meet the required standard as part of the delivery and certification process.

## **Qualification Level**

The level of a qualification relates to the complexity and difficulty associated with the development of the knowledge and skills of a particular subject.

Qualification levels start at Entry Level and then progress from Level 1 through to Level 8

## **Qualification Size**

The size of a qualification is an indication of the total amount of time a qualification will take to complete indicated using the term Total Qualification Time (TQT)

Qualification sizes are expressed using the terms Award, Certificate or Diploma

## **Total Qualification Time (TQT)**

Total Qualification Time (TQT) provides a guide of the average time it takes to complete a qualification broken down into two types of activity:

- ✓ **Guided Learning (GL)** made up of activities completed by the learner under the direct instruction or supervision of a lecturer, supervisor or tutor whether through physical presence or electronic means provided as a measurement of time in hours
- ✓ **Total Qualification Time (TQT)** made up of the Guided Learning (GL) plus all other time taken in preparation, study or any other form of participation in education or training but not under the direct supervision of a lecturer, supervisor or tutor provided as a measurement of time in hours

TQT is a new system used by the Regulator and will be phased in up to 31 December 2017.

## What Does SFEDI Awards Expect?

To offer this qualification an organisation is required to hold SFEDI Awards centre status and also apply for qualification approval. The latest information on the SFEDI Awards website can be viewed by clicking here.

As we operate as a regulated Awarding Organisation we hold high regard to the standards of professional service we provide to centres and, in turn, the service centres deliver to their learners.

To support this we operate a number of policies and procedures to ensure that we always operate in a fair and open manner.

Published on the SFEDI Awards website are policies and procedures covering the following areas:

- ✓ Appeals
- ✓ Complaints
- ✓ Continuous Professional Development (CPD)
- ✓ Customer Service Policy
- ✓ Direct Claims Status
- ✓ Equal Opportunities
- Invoicing
- ✓ Qualification Titling in Marketing and Logo Usage
- ✓ Malpractice and Maladministration
- ✓ Privacy
- ✓ Quality Bulletins
- ✓ Reasonable Adjustments
- ✓ Recognised Prior Learning
- Registration and Certification
- ✓ Retention of Records
- √ Whistleblowing

We are continually updating the policies and procedures available to view through the website so please keep checking back to make sure you have the latest information available. You can see the latest versions of all of these policies by clicking here.

## **Learner Registration and Certification**

Our online registration and certification system, Registr8, allows you to process information efficiently and quickly. You can register and certificate learners, produce reports, retrieve and view customer information and also access invoices and monitoring reports.

Learners should be registered with SFEDI Awards within 4 weeks of commencing the programme or qualification. It is the responsibility of the centre to obtain a Unique Learner Number (ULN), from the Learner Records Service, and accurately enter this into the Registr8 system in order that learner achievements can be recorded on their Personal Learning Record (PLR).

SFEDI Awards centres must use the Registr8 system to indicate where a learner has successfully completed the qualification and/or units within it. Where a centre holds Direct Claims Status (DCS) certificates will be issued, where this is not the case an External Quality Assurer will contact the centre to arrange sampling.

# **How We Monitor Qualification Delivery**

We pride ourselves in the continued quality of the delivery of our qualifications through our delivery network and in order to ensure that this is maintained we conduct both folder and systems monitoring activities.

We provide two monitoring activity reviews per year where a member of our Monitoring Team will review your organisation's activities in order to provide feedback and support on your qualification delivery. If you think you need a visit simply contact our Customer Service Team on customerservices@sfediawards.com or 0845 224 5928 and we will be more than happy to discuss your requirements with you.

You will be provided with a report on completion of the monitoring activity feeding back on your organisation's current performance against the SFEDI Awards Core Principles and planning activities to help support continuous improvement and the sharing of best practice.

In order to inform future monitoring activities, SFEDI Awards makes use of a risk rating system that provides an organisation with a rating determined by the findings of monitoring activities.

SFEDI Awards also conducts additional monitoring activities in order to provide support and ensure the continued quality of the delivery of our qualifications including:

- ✓ Customer Satisfaction Surveys
- ✓ Mystery Shopping
- ✓ Qualification Consultations and Reviews
- ✓ Thematic Reviews

Each of these allows us to ensure that the qualifications we provide and the way they are provided continues to support the development of the enterprise skills agenda and a truly entrepreneurial community.

## **Direct Claims Status (DCS)**

We operate a system called Direct Claims Status (DCS) providing you with the ability to certificate learners' achievements without the need for external monitoring activity taking place first. It is awarded at qualification level and not centre level and can be awarded and removed dependent on the consistency, quality and integrity of the qualification delivery within the centre.

Where a centre holds DCS a monitoring officer from SFEDI Awards will sample a selection of the folders worked on and completed since the last external monitoring activity.

Where a centre does not hold DCS for a qualification it will require an external monitoring activity to take place prior to being able to gain certification for learners.

## **Internal Quality Assurance**

Internal Quality Assurance will be completed by the SFEDI Awards centre and involves sampling of learners' documents and assessment decisions to ensure standardisation across Delivery/Assessment staff and consistency and fairness of assessment following Awarding Organisation requirements.

SFEDI Awards provides quality assurance documentation that can be used by the centre for recording quality assurance decisions. We have provided templates which can be used within the annex of this document or alternatively they, and other templates, can be accessed on the SFEDI Awards website. These documents are provided

for the centre to use but, if the centre wishes to develop their own recording material, the minimum requirements must be met to ensure quality assurance practices are not disadvantaged. Minimum requirements can be accessed on the SFEDI Awards website.

## **Delivery/Assessment**

SFEDI Awards centre staff should work with learners to ensure they understand the nature of the qualification and assessment approach. Both centre staff and the learner should agree at the beginning of the assessment journey how the assessment will be undertaken and what each can expect from the other, including arranging times and dates for learning and assessment activity and support. The Delivery/Assessment staff will follow the principles of plan, judge and feedback as described within professional standards.

SFEDI Awards provides assessment documentation that can be used by the centre for recording the planning, judging and feeding back of assessments. We have provided templates which can be used within the annex of this document or alternatively they, and other templates, can be accessed on the SFEDI Awards website. These documents are provided for the centre to use but, if the centre wishes to develop their own recording material, the minimum requirements must be met to ensure assessment practices are not disadvantaged. Minimum requirements can be accessed on the SFEDI Awards website.

## **Delivery/Assessment/Quality Assurance Staff Requirements**

There is no requirement for Delivery/Assessment or Internal Quality Assurance staff to hold the Assessment or Internal Quality Assurance qualification. It is recommended that, as best practice, staff should be working towards these or already achieved the appropriate qualification. If the centre decides to use none qualified tutors/trainers/line managers for the delivery or quality assurance of a qualification, prior approval must be sought from SFEDI Awards.

If you wish to access public funding for the delivery of qualifications, please refer to your funding agency for delivery staff qualification requirements.

## **Assessment Methods**

The following provides examples and explanations of the most common forms of assessment methods. Other methods can be used by centres to enable learners to demonstrate they meet the standards as detailed within the units.

## **Initial Assessment**

Centres should complete an initial assessment with learners prior to the commencement of the qualification to ensure that the subject matter and level of the qualification is the most appropriate to meet their needs.

This initial assessment should also form part of the planning process so that the most appropriate methods of assessment are chosen to suit the learner and their learning environment whilst also meeting any mandatory assessment methods the qualification may contain.

## **Mandatory Assessment Methods**

Some units may require mandatory forms of assessment to be completed. SFEDI Awards will make note in each unit whether mandatory assessment methods apply. If it states that there are no mandatory assessment methods, a suggestion of the types of assessments that could be used will be provided.

## **Expert Witness/Witness Testimony**

These are provided by external people as the Delivery/Assessment staff cannot possibly be present at all times when a learner completes a task that could be used as evidence. The testimony will be expected to detail who and what the activity entailed and where the activity took place. A template for the collection of a witness testimony has been provided later within this document.

## Observation

This is a recorded report of an observed activity to show who and what the activity entailed and where the activity took place. It is normally recorded by the Delivery/Assessment staff and should be planned for. On occasions the opportunity may arise for a naturally occurring observation but this must not be seen as common practice. A template for the collection of an observation has been provided later within this document.

## **Product Evidence**

This is a work product, for example a letter or research, that has been produced which can support the evidencing of performance. When using this form of evidence it is important to ensure that confidentiality is adhered to and no information is provided that may compromise this. It may be appropriate to reference the location of product evidence within a professional discussion so that, if the quality assurer wishes to view it, then they can request a copy. A template for the collection of product evidence has been provided later within this document.

#### **Professional Discussion**

This is a recorded report of a discussion between the learner and the Delivery/Assessment staff and should give real examples, where possible, of activity completed. It is normally recorded by the Delivery/Assessment staff and should be planned for. A Professional Discussion is not a question and answers session and should be led by the learner. A template for the collection of a professional discussion has been provided later within this document.

## **Recognition of Prior Learning**

Prior Learning can form part of the assessment process where the learner is able to demonstrate that they meet the assessment requirements for a unit through knowledge, understanding or skills that they already possess. In this instance the learner must provide evidence to show that the assessment criteria have been met.

The Assessor will make a professional judgement about the evidence presented, which could be in a variety of forms, including, a statement or professional discussion to explain what prior activity has taken place and how this links to the standards to be achieved. The assessment process for Recognition of Prior Learning should be rigorous, reliable and fair.

For full details of how recognition of prior learning can be used within SFEDI Awards qualifications please see the SFEDI Awards website.

## **Simulation**

In exceptional circumstances evidence from simulation can be used to complement the primary evidence drawn from business enterprise activities. Simulation should only occur where:

✓ The candidate would otherwise be precluded from providing the necessary evidence for demonstrating they met the requirements of the standards because of the nature of their business or business idea

Simulated activities should match as closely as possible those that occur in a real business environment. This is particularly important where these activities and their outcomes are being assessed to provide evidence to demonstrate the candidate is meeting the requirements of the standards. If simulation is to be used, prior agreement as to the arrangements must be sought from SFEDI Awards prior to the assessment taking place.

Activities should take place in a realistic working environment that:

- Is based on business enterprise activities, events, challenges and markets
- ✓ Includes a comprehensive range of demands, activities, constraints and challenges typical of those that would be met in real a business enterprise
- ✓ Gives candidates access to facilities, advice and support that would be normal for the business enterprise activity, event or type of challenge represented
- ✓ Places candidates under pressures of time, resources and access to support that would be normal in a business enterprise
- ✓ Is organised and managed as would a real business enterprise situation
- ✓ Is subject to normal workplace controls regarding health and safety, equal opportunities, and codes of conduct

## **Authentication of Learner Evidence**

Centres must have knowledge and certainty that all assessments undertaken are entirely the work of the learner being assessed and a statement of authenticity signed by the learner and Assessor must be present within the portfolio. A template to record this statement has been provided later within this document.

#### Feedback

Feedback must be provided to the learner for each assessment carried out and recorded on the assessment documentation and should feed into both assessment planning and the completion of progress reviews. The feedback should provide the learner with information relating to:

- ✓ Whether the planned assessment has been completed
- ✓ The quality of the assessment completed
- ✓ What has been covered within the standards
- ✓ What is required to be completed to move the qualification forward

Templates to support the planning and feedback functions have been provided later within this document.

## **Data Protection and Confidentiality**

Many of the potential assessment methods that could be used in order to support the delivery of a qualification may lead to the inadvertent collection of data and confidential information, for example where a piece of product evidence has been gathered.

In these instances both the learner and the centre should take all reasonable steps to ensure that data protection and confidentiality legislation and policies are followed and data that should not be released within the public domain is protected.

## **Protection of Minors in Evidence Collection**

Where video or photography is used in order to collect evidence for the completion of a qualification, care should be taken where minors (those under 18) are included within. Both the learner and the centre have responsibility for ensuring child protection legislation and policies are followed and that minors are not put at risk.

If a minor is included within video and/or photographic evidence it is the responsibility of the centre to inform the learner of:

- The requirement to obtain the permission from the minor's parent or guardian prior to collecting the evidence
- ✓ The purpose of the restrictions that are in place when making use of video and/or photographic evidence
- ✓ The requirement to retain evidence for the purpose of quality assurance and the timeframe that evidence will be retained
- ✓ The requirement to store video and/or photographic evidence securely
- The associated child protection legislation

## **Unit Structure**

The following demonstrates the structure of units within SFEDI Awards qualifications:

Unit Status

This will show whether the unit is mandatory or optional

Unit Level

Level allocated to the unit on the RQF unit databank

Credit Value

Credit value assigned to the unit

Guided Learning

Learning hours required to complete the unit under the guidance of a lecturer,

supervisor or tutor whether through physical presence or electronic means

#### **Unit Overview and Main Outcomes**

This will provide you with the rationale for the unit and the knowledge and skills the learner will develop by undertaking the unit.

## **Assessment and Grading of This Unit**

This will provide you with the grading structure for the unit and also will list the mandatory and/or suggested assessment methods for use in the completion of the unit.

## **Unit Content**

This will provide you with the learning outcomes and assessment criteria that the learner must provide evidence for in order to complete the unit.

Learning Outcome - The learner will:	Assessment Criterion - The learner can:
This shows what the learner needs to know, understand or do	This sets out the criteria the learner must meet and provide evidence against in order to complete the unit

# **Qualification Unit Details**

This page is left intentionally blank

The following pages contain the units that are contained within this qualification

# D/508/4296 Operations Management Processes

Unit Status Group A

Unit Level 5

Credit Value 10

Unit Learning hours 10

## **Assessment and Grading of This Unit**

This unit is graded on a pass or fail basis and the learner must demonstrate evidence against all of the listed assessment criteria in order to achieve this unit.

- ✓ Product evidence
- ✓ Learner statement/case study
- ✓ Pre-approved worksheets
- ✓ Professional discussion
- ✓ Recognition of prior achievement
- ✓ Recognition of prior learning
- ✓ Witness testimony

LO1	AC1.1	AC1.2	
Understand the role of operations and operations management within business	Describe the roles and responsibilities of operations managers within different organisational contexts	Discuss how operations management supports business	
LO2	AC2.1	AC2.2	AC2.3
Understand the design of operations processes as well as the design of the products and services that organisations produce	Discuss the objectives and design of operation processes	Analyse the interconnected relationship between operation and supply networks	Describe the range of process technologies, its advantages and constraints it might impose on the operation
LO3	AC3.1	AC3.2	
Understand the correlation between operations management and strategic planning	Describe the links between strategy and operational performance targets	Discuss why there may be tension between different performance targets	
LO4	AC4.1	AC4.2	
Understand how operations improvement techniques could enhance competitive advantage in business	Explain the use of the value chain as a platform for identifying competitive advantage	Discuss the role of standard setting bodies in quality improvement	
LO5	AC5.1		
Understand the key challenges for an organisation	Explain the key challenges for an organisation and the role of operations management in dealing with these		

# L/508/4276 Logistics

Unit Status Group A

Unit Level 5

Credit Value 10

Unit Learning hours 10

## Assessment and Grading of This Unit

This unit is graded on a pass or fail basis and the learner must demonstrate evidence against all of the listed assessment criteria in order to achieve this unit.

- ✓ Product evidence
- ✓ Learner statement/case study
- ✓ Pre-approved worksheets
- ✓ Professional discussion
- ✓ Recognition of prior achievement
- ✓ Recognition of prior learning
- ✓ Witness testimony

LO1	AC1.1	AC1.2	AC1.3	
Understand the principles behind logistics requirements of a supply chain	Discuss how logistics operations are matched to customer requirements	Explain the changes and developments to supply chains that could affect logistics operations	Discuss the relevant legislation and regulations that apply to logistics operations within own country	
LO2	AC2.1	AC2.2	AC2.3	
Understand how to schedule logistics operations to meet customers' needs	Discuss scheduling methodology and tools used in relation to organisational procedures	Describe the factors and risks that affect logistics scheduling	Explain the planning process of logistics operations to ensure that the supply chain continues to function	
LO3	AC3.1	AC3.2	AC3	
Understand how to optimise the use of logistics operations	Describe the factors that affect the availability and demand for logistics resources	Describe the relevant factors affecting the use of logistics resources	Discuss ways of improving or developing logistics resources used in logistics operations	
LO4	AC4.1	AC2		
Understand the range of transport modes and their usage within logistics operations	Discuss the main transport modes and transportation routes used for the movement of goods	Explain the factors that affect the transportation of supplies in relation to customer requirements and operational restraints		
LO5	AC5.1	AC5.2	AC5.3	AC5.4
Understand the use of technology and the importance of quality within logistics operations	Describe the efficiency and effectiveness of technology used with logistics operations	Discuss the ways in which technology has improved logistics operations	Analyse issues arising from the use of technology in logistics operations	Explain the different improvement methodology used for improving the quality of logistics operations

# T/508/4305 Movement of Goods

Unit Status Group A

Unit Level 5

Credit Value 10

Unit Learning hours 10

## **Assessment and Grading of This Unit**

This unit is graded on a pass or fail basis and the learner must demonstrate evidence against all of the listed assessment criteria in order to achieve this unit.

- ✓ Product evidence
- √ Learner statement/case study
- ✓ Pre-approved worksheets
- ✓ Professional discussion
- ✓ Recognition of prior achievement
- ✓ Recognition of prior learning
- ✓ Witness testimony

LO1	AC1.1	AC1.2	
Understand the principles and practices in relation to the movement of goods	Identify the principles of logistics in relation to the movement of goods	Explain the characteristics of the main modes of transport used in the movement of goods and their infrastructure requirements	
LO2	AC2.1	AC2.2	AC2.3
Understand how the characteristics of goods impact on their handling	Describe the characteristics of different types of goods as well as the impact on their handling	Describe the safety and security implications relating to the different types of goods	Describe the methods of unitisation for different types of consignments
LO3	AC3.1	AC3.2	AC3.3
Understand the considerations that influence the flow of goods	Describe the planning of loads to match the variable patterns of demand and supply	Explain the different sources and destinations of goods in order to ensure the appropriate use of resources	Describe the planning and scheduling of freight transits using appropriate third party logistics providers

# Y/508/4278 Transport Management

Unit Status Group A

Unit Level 5

Credit Value 10

Unit Learning hours 10

## **Assessment and Grading of This Unit**

This unit is graded on a pass or fail basis and the learner must demonstrate evidence against all of the listed assessment criteria in order to achieve this unit.

- ✓ Product evidence
- ✓ Learner statement/case study
- ✓ Pre-approved worksheets
- ✓ Professional discussion
- ✓ Recognition of prior achievement
- ✓ Recognition of prior learning
- ✓ Witness testimony

LO1	AC1.1	AC1.2	
Understand the nature and purpose of transport planning	Discuss the demand for the use of transport	Explain the issues associated with access and mobility	
LO2	AC2.1	AC2.2	
Understand how historical developments and more recent trends in land use affect transport planning	Explain the historical developments in land use	Analyse how the developments in land use have affected transport planning within own country	
LO3	AC3.1	AC3.2	AC3.3
Understand how the principles of sustainability are applied to transport planning	Discuss the relations between transport and land use from an: 1 Economic 2 Social 3 Technical 4 Environmental perspective	Describe the different stages of transport planning	Describe how to develop and implement a four stage transport plan
LO4	AC4.1	AC4.2	AC4.3
Understand the current trends and causes for transport demand	Discuss the issues that impact on the demand for transport	Describe the past trends in transport demand and how these can be used to project future forecast for demand	Describe how to develop strategies which take future forecasts into consideration
LO5	AC5.1	AC5.2	AC5.3
Understand issues with the movement of freight	Explain the different aspects of transport in relation to freight and urban transportation	Describe the link between sustainable transport management and sustainable transport policy	Analyse the conventional and emerging issues in transport management

# K/508/4298 Production Management

Unit Status Group A

Unit Level 5

Credit Value 10

Unit Learning hours 10

## **Assessment and Grading of This Unit**

This unit is graded on a pass or fail basis and the learner must demonstrate evidence against all of the listed assessment criteria in order to achieve this unit.

- ✓ Product evidence
- ✓ Learner statement/case study
- ✓ Pre-approved worksheets
- ✓ Professional discussion
- ✓ Recognition of prior achievement
- ✓ Recognition of prior learning
- ✓ Witness testimony

LO1	AC1.1	AC1.2	AC1.3		
Understand the components of production planning and evaluate its function within a supply chain	Describe the production planning cycle	Explain costs and levels of service to increase profitability	Evaluate the function of production in relation to a supply chain		
LO2	AC2.1	AC2.2	AC2.3		
Understand the inter-relationships between production planning, sales planning and forecasting	Discuss how sales planning requirements could be incorporated into the production plan	Analyse the demand management processes	Analyse two different forecasting techniques and justify the selection of one for use		
LO3	AC3.1	AC3.2	AC3.3		
Understand the terminology associated with Master Scheduling and basic scheduling concepts	Describe how to generate a Master Production Schedule	Describe the principles and management of Rough Cut Capacity Planning (RCCP)	Explain the duties of Production Control in relation to production scheduling		
LO4	AC4.1	AC4.2			
Understand how manufacturing and control systems have developed historically	Explain modern day principles of planning against basic principles	Discuss the efficiency of two different production planning systems			
LO5	AC5.1	AC5.2	AC5.3	AC5.4	AC5.5
Understand a variety of measures to improve production planning performance	Describe the development of benchmarking and benchmarking techniques.	Explain two quality improvement models and justify the selection of one model for use	Explain available options for improving product planning performance	Describe the performance measures for use in production planning performance improvement	Explain the primary sources of waste and the ways to eradicate or reduce it

# M/508/4299 Quality Management

Unit Status Group A

Unit Level 5

Credit Value 10

Unit Learning hours 10

## **Assessment and Grading of This Unit**

This unit is graded on a pass or fail basis and the learner must demonstrate evidence against all of the listed assessment criteria in order to achieve this unit.

- ✓ Product evidence
- ✓ Learner statement/case study
- ✓ Pre-approved worksheets
- ✓ Professional discussion
- ✓ Recognition of prior achievement
- ✓ Recognition of prior learning
- ✓ Witness testimony

LO1	AC1.1	AC1.2
Understand the range of quality management systems appropriate for use in business	Explain quality definitions used within business	Describe three different quality management systems and justify the selection of one for use
LO2	AC2.1	
Understand the advantages of an organisation having a quality management system in place	Discuss the benefits and the impact of operating a quality management system	
LO3	AC3.1	AC3.2
Understand the tools and techniques to manage quality	Explain three quality control tools and techniques, using examples where appropriate	Analyse two quality control tools and techniques and justify the selection of one for use
LO4	AC4.1	AC4.2
Understand how to employ quality management tools and techniques to improve organisational performance	Explain quality methods in relation to continuous improvement within an organisation	Discuss the ways in which information relating to quality management is communicated within an organisation

# R/508/4280 Purchasing Management

Unit Status Group A

Unit Level 5

Credit Value 10

Unit Learning hours 10

## **Assessment and Grading of This Unit**

This unit is graded on a pass or fail basis and the learner must demonstrate evidence against all of the listed assessment criteria in order to achieve this unit.

- ✓ Product evidence
- ✓ Learner statement/case study
- ✓ Pre-approved worksheets
- ✓ Professional discussion
- ✓ Recognition of prior achievement
- ✓ Recognition of prior learning
- ✓ Witness testimony

LO1	AC1.1	AC1.2 AC1.3		AC1.4
Understand the key roles and focus of management within purchasing	Describe the key roles and main focus of management within purchasing	Describe the stages of the purchasing cycle	Discuss the external supplier market and the factors which impact sourcing and procurement	Analyse the influence and power that stakeholders can have on an organisation
LO2	AC2.1	AC2.2		
Understand the impact of legislation upon the purchasing function	Explain contract law and the effects of breach of contract upon a business in own country	Discuss how consumer law within own country impacts on the purchasing function		
LO3	AC3.1	AC3.2	AC3.3	AC3.4
Understand the importance of building and sustaining collaborative working relationships with suppliers	Explain the strategies for managing and maintaining collaborative supplier relationships	Discuss the methods for the effective appraisal of suppliers	Describe the risks and barriers that could exist when developing supplier relationships	Explain the supplier relationship spectrum and apply it to an organisation context
LO4	AC4.1	AC4.2		
Understand how effective negotiation skills contribute to successful purchasing management	Describe tools and techniques used for effective negotiating	Describe the issues to be considered when undertaking negotiation with suppliers		

# Y/508/4300 Ports and Shipping Management

Unit Status Group A

Unit Level 5

Credit Value 10

Unit Learning hours 10

## **Assessment and Grading of This Unit**

This unit is graded on a pass or fail basis and the learner must demonstrate evidence against all of the listed assessment criteria in order to achieve this unit.

- ✓ Product evidence
- ✓ Learner statement/case study
- ✓ Pre-approved worksheets
- ✓ Professional discussion
- ✓ Recognition of prior achievement
- ✓ Recognition of prior learning
- ✓ Witness testimony

LO1	AC1.1	AC1.2	AC1.3	AC1.4
Understand the importance of shipping and international trade	Explain the reasons why there is a need and demand for shipping and International trade	giving examples where	•	Describe international trade patterns and two main international maritime passages
LO2	AC2.1	AC2.2		
Understand how business strategy in shipping contributes to growth	Explain corporate, business and financial strategies for shipping	Discuss the operational effectiveness and competitive strategy in shipping		
LO3	AC3.1	AC3.2	AC3.3	
Understand port operations and effective container terminal management	Describe the key Container Port terminal facilities and infrastructure		Explain the importance of container terminal performance	
LO4	AC4.1	AC4.2		l
Understand the concept of agile ports and the key characteristic	Describe the characteristics of an agile port	Explain the implementation model for creating an agile port		
LO5	AC5.1	AC5.2		
Understand port development, the operating environment and evolution of a port	Explain the differences (in a Port operating context) between: 1 Containerisation 2 Concentration 3 Collaboration 4 Competition	Discuss recent evolutions within ports		

# F/508/4291 Inventory

Unit Status Group A

Unit Level 5

Credit Value 10

Unit Learning hours 10

## **Unit Overview and Main Outcomes**

## **Assessment and Grading of This Unit**

This unit is graded on a pass or fail basis and the learner must demonstrate evidence against all of the listed assessment criteria in order to achieve this unit.

- ✓ Product evidence
- ✓ Learner statement/case study
- ✓ Pre-approved worksheets
- ✓ Professional discussion
- ✓ Recognition of prior achievement
- ✓ Recognition of prior learning
- ✓ Witness testimony

LO1	AC1.1			
Understand the purpose of inventory management	Describe what is meant by inventory management and how it can contribute to competitive advantage			
LO2	AC2.1	AC2.2	AC2.3	AC2.4
Understand the principles of the traditional fixed period and fixed quantity models of inventory control	Describe how to apply appropriate techniques to plan the inventory requirements of an organisation	Discuss the impact of different variables on re-order levels within an organisation	Explain different types of order quantity models, their limitations and relevance to inventory control systems	Explain the meaning of: 1 Economic Order Quantity; 2 Average Deviation; 3 Fixed Order Quantity; 4 Safety Stock
LO3	AC3.1	AC3.2	AC3.3	
Understand the impact of inventory management on the supply chain	Explain the value of traditional inventory models for different types of operation	Explain basic inventory control principles in relation to modern systems	Explain the role of quantitative and qualitative forecasting techniques in inventory management within the supply chain	
LO4	AC4.1	AC4.2	AC4.3	AC4.4
Understand the relevant legislation applicable to a warehouse	Describe the effectiveness of modern inventory control systems against traditional models	Describe how to develop procedures to monitor the performance of an inventory control system	Describe how to develop an inventory strategy plan within a supply chain network to increase operational efficiency and customer service satisfaction	Explain the suitability of key performance indicators used to measure the performance of inventory management
LO5	AC5.1	AC5.2		
Understand the importance of inventory management to minimise the stock level	Describe how stocks can best be allocated within a distribution network	Analyse different models of Inventory control system to minimise stock within a network		

# L/508/4293 Warehousing

Unit Status Group A

Unit Level 5

Credit Value 10

Unit Learning hours 10

## Assessment and Grading of This Unit

This unit is graded on a pass or fail basis and the learner must demonstrate evidence against all of the listed assessment criteria in order to achieve this unit.

- ✓ Product evidence
- ✓ Learner statement/case study
- ✓ Pre-approved worksheets
- ✓ Professional discussion
- ✓ Recognition of prior achievement
- ✓ Recognition of prior learning
- ✓ Witness testimony

LO1	AC1.1	AC1.2
Understand the need and role of developing an appropriate warehouse policy	Explain the purpose of and the need to develop an appropriate warehouse policy	Analyse the impact of a warehouse policy on an organisation in order to plan, organise, direct and control warehouse operations
LO2	AC2.1	AC2.2
Understand the resource requirements of warehousing	Explain three different warehouse layouts, including the advantages and disadvantages of each	Describe the resource requirements in relation to the warehouse layouts explained in AC 2.1
LO3	AC3.1	AC3.2
Understand the basic concept of inventory and the need to develop an inventory strategy	Discuss the importance of integrated supply chain strategies	Analyse an inventory strategy plan within the supply chain network of an organisation
LO4	AC4.1	
Understand the relevant legislation applicable to a warehouse	Describe the relevant information applicable to a warehouse in relation to:  1 Health and Safety regulations; 2 Licensing and permits; 3 Principles of Insurance; 4 One other piece of relevant legislation	
LO5	AC5.1	AC5.2
Understand the importance of technology advancements in a warehouse	Discuss innovations and techniques used to improve warehouse functionality	Explain the impact of IT systems within an organisation against warehouse performance KPIs
LO6	AC6.1	AC6.2
Understand financial systems within a warehouse	Explain methods for compiling financial reports, in particular budget reports, within a warehouse environment	Discuss the current financial systems within an organisation

## R/508/4277 Supply Chain Management

Unit Status Group A

Unit Level 5

Credit Value 10

Unit Learning hours 10

#### **Assessment and Grading of This Unit**

This unit is graded on a pass or fail basis and the learner must demonstrate evidence against all of the listed assessment criteria in order to achieve this unit.

- ✓ Product evidence
- ✓ Learner statement/case study
- ✓ Pre-approved worksheets
- ✓ Professional discussion
- ✓ Recognition of prior achievement
- ✓ Recognition of prior learning
- ✓ Witness testimony

LO1	AC1.1	AC1.2
Understand how a supply chain can gain competitive advantage from efficient management and control	Discuss the strengths and weaknesses of the supply chain within an organisation	Explain the ability of a supply chain to provide competitive advantage
LO2	AC2.1	AC2.2
Understand the impact of physical and information flows on the integration and harmonisation within a supply chain	Describe the physical and information flows within a supply chain	Discuss how these flows impact on improvements in integration and harmonisation within a supply chain
LO3	AC3.1	AC3.2
Understand why supply chains may not always function correctly	Describe the barriers to the effective working of a supply chain	Discuss the possible solutions to the barriers identified in AC 3.1 and how they can be applied
LO4	AC4.1	AC4.2
Understand how supply chain planning is achieved from a strategic and operational perspective	Explain what is meant by Strategic and Operational Planning within a Supply Chain	Describe the process involved with the designing of a supply chain plan to meet the objectives of an organisation
LO5	AC5.1	AC5.2
Understand how modern technology has impacted the supply chain	Describe the key elements and functions of two advances in technology within the supply chain	Explain how the two advances in technology identified in AC 5.1 have impacted upon supply chain operations

## K/508/4303 Humanitarian Logistics

Unit Status Group A

**Unit Level** 5

Credit Value 10

Unit Learning hours 10

#### **Assessment and Grading of This Unit**

This unit is graded on a pass or fail basis and the learner must demonstrate evidence against all of the listed assessment criteria in order to achieve this unit.

- ✓ Product evidence
- ✓ Learner statement/case study
- ✓ Pre-approved worksheets
- ✓ Professional discussion
- ✓ Recognition of prior achievement
- ✓ Recognition of prior learning
- ✓ Witness testimony

LO1	AC1.1	AC1.2	AC1.3	
Understand the principles of Humanitarian Logistics	Describe the main principles and values of humanitarian logistics	Describe the humanitarian supply chain relationships	Explain what is meant by the term Disaster Management and its key concepts	
LO2	AC2.1	AC2.2		
Understand the nature of emergency situations and what is involved	Explain the situations when humanitarian logistics is required	Identify humanitarian aid requirements and describe the emergency response strategy		
LO3	AC3.1	AC3.2	AC3.3	AC3.4
Understand how the international humanitarian system works	Describe what is meant by the Sphere Standards and how they are used	Describe what is meant by the Humanitarian Charter and how it is used	Describe how to prepare humanitarian supply chains	Explain ways of improving humanitarian supply chains

## A/508/4290 Business

Unit Status Group B

Unit Level 5

Credit Value 10

Unit Learning hours 10

## **Assessment and Grading of This Unit**

This unit is graded on a pass or fail basis and the learner must demonstrate evidence against all of the listed assessment criteria in order to achieve this unit.

- ✓ Product evidence
- ✓ Learner statement/case study
- ✓ Pre-approved worksheets
- ✓ Professional discussion
- ✓ Recognition of prior achievement
- ✓ Recognition of prior learning
- ✓ Witness testimony

LO1	AC1.1	AC1.2	AC1.3	AC1.4
Understand the process of strategic development in business	Explain three different Business Planning Techniques used in business	Explain what is meant by strategic terminology	Discuss approaches to strategy evaluation and selection	Analyse two examples of Business Process Modelling
LO2	AC2.1	AC2.2	AC2.3	
Understand the importance of building and maintaining collaborative business relationships	Analyse two methods of building collaborative relationships and how effective client interaction can be assured	Explain how clients are informed of the support processes available within your organisation	Discuss the benefits of collaborative busines s relationships	
LO3	AC3.1	AC3.2	AC3.3	AC3.4
Understand how effective and efficient human resource management contributes to the achievement of organisational goals	Describe the roles of Human Resource Managemen t professionals and Line Managers	Discuss own organisation's procedures and practices in line with legislation with regard to: 3.2.1 Employment of employees 3.2.2 Remuneration of employees 3.2.3 Appraisal of employees	Describe appropriate responses to resolve defined problems in the field of employee relations	Discuss the significance of key developments in recent Human Resource Managemen t
LO4	AC4.1	AC4.2	AC4.3	
Understand the management of finance in business	Explain the causes of and problems surrounding cash flow forecasting in business	Describe how suitable costing techniques can be applied to assess the financial ramification s of uninformed decisions	Explain the importance of the role of managerial accounting in business strategy	
LO5	AC5.1	AC5.2	AC5.3	
Understand how own country's current legislation impact s on business	Describe your own country's contract law and the effects of a breach of contract upon a business	Explain your own country's legislation in relation to the sales of goods	Explain your own country's legislation associated with consumer credit and safeguards for debtors	

LO6	AC6.1	AC6.2	AC6.3	AC6.4	AC6.5
Understand marketing strategies in business	Explain traditional and contemporary marketing tools to support strategic marketing	Discuss the function of research in marketing decision making	Describe the process of marketing and developing new products	Analyse the impact of global marketing on marketing strategies	Analyse contemporary business marketing on marketing strategies

## R/508/4294 Management

Understand the principles of sea freight management	Explain the demand characteristics of sea freight	Discuss the role of freight forwarders and ship owners in the movement of sea freight	Explain the factors influencing the supply of shipping	
LO2	AC2.1	AC2.2	AC2.3	AC2.4
Understand the legislation and regulations governing the movement of shipping	Describe the requirements for ship registration and classification regulations	Describe the basic principles of contracts within sea freight movement	Explain the importance of maritime insurance	Describe how business ethics operate within the sea freight environment
LO3	AC3.1	AC3.2	AC3.3	
Understand the role of shipping freight operations	Explain the characteristics of the different types of cargo transported by sea	Discuss the importance of scheduling and routing within sea freight operations	Analyse the use of crewing agencies	
LO4	AC4.1	AC4.2	AC4.3	
Understand different financial strategies found within the shipping industry	Analyse the relationship between price and demand	Explain how hedging techniques can affect financial strategy	Explain the importance of voyage estimating and breakeven analysis in determining minimum freight rates	

## F/508/4324 Air Freight

Unit Status Group B

Unit Level 5

Credit Value 10

Unit Learning hours 10

## **Assessment and Grading of This Unit**

This unit is graded on a pass or fail basis and the learner must demonstrate evidence against all of the listed assessment criteria in order to achieve this unit.

- ✓ Product evidence
- ✓ Learner statement/case study
- ✓ Pre-approved worksheets
- ✓ Professional discussion
- ✓ Recognition of prior achievement
- ✓ Recognition of prior learning
- ✓ Witness testimony

LO1	AC1.1	AC1.2	AC1.3
Understand the role of air freight management	Identify the requirements for different types of air freight	Analyse the advantages and limitations of air freight movement	Explain the role of freight forwarders in the movement of air freight
LO2	AC2.1	AC2.2	
Understand how air freight movement is important to the global economy	Explain how the principles of air freight management can contribute to a competitive advantage	Discuss how air freight movement has been affected by the concept of globalisation	
LO3	AC3.1	AC3.2	
Understand the importance of security and safety regulations and the impact of environmental legislation on the air industry	Identify and explain the requirements for airline security and safety regulations	Analyse the environmental impact of air freight movement	
LO4	AC4.1	AC4.2	AC4.3
Understand the management of container usage in the air freight industry	Evaluate the demand characteristics of air freight	Discuss the relative benefits of manual handling equipment within airport operations	Explain the use of containers and unit load devices in air transportation systems

## M/508/4304 Military Logistics

Unit Status Group B

Unit Level 5

Credit Value 10

Unit Learning hours 10

#### **Assessment and Grading of This Unit**

This unit is graded on a pass or fail basis and the learner must demonstrate evidence against all of the listed assessment criteria in order to achieve this unit.

- ✓ Product evidence
- ✓ Learner statement/case study
- ✓ Pre-approved worksheets
- ✓ Professional discussion
- ✓ Recognition of prior achievement
- ✓ Recognition of prior learning
- ✓ Witness testimony

LO1	AC1.1	AC1.2	AC1.3
Understand the principles behind military logistics	Describe how military logistics operations are matched to customer requirements	Describe the changes and developments to supply chains that could affect military logistics operations	Explain the relevant legislation and regulations (both civilian and military) that apply to military logistics
LO2	AC2.1	AC2.2	AC2.3
Understand how to optimise the use of resources in military logistics operations	Describe the availability and demand for logistics resources within area of operations	Explain the relevant factors affecting the use of military logistics resources	Discuss ways of improving or developing military logistics resources used in military logistics operations
LO3	AC3.1	AC3.2	
Understand the range of transport modes and their usage within logistics operations	Explain the transportation lines of communication used to move goods within military logistics	Discuss the factors that affect the transportation of supplies in relation to customer requirements and military operational restraints	
LO4	AC4.1	AC4.2	AC4.3
Understand the use of technology within military logistics operations	Describe the use of technology within military logistics operations and the issues that arise from its use	Discuss the ways in which technology has improved military logistics operations	Explain future improvements that could be made within military logistics
LO5	AC5.1	AC5.2	AC5.3
Understand the importance of improving the quality of military logistics operations	Describe the ways in which military logistics operations are controlled and monitored	Describe the potential areas for improving military logistics operations	Explain potential quality methods and tools that could be used for military logistics operations

## D/508/4282 International Freight Management

Unit Status Group B

Unit Level 5

Credit Value 10

Unit Learning hours 10

#### **Assessment and Grading of This Unit**

This unit is graded on a pass or fail basis and the learner must demonstrate evidence against all of the listed assessment criteria in order to achieve this unit.

- ✓ Product evidence
- ✓ Learner statement/case study
- ✓ Pre-approved worksheets
- ✓ Professional discussion
- ✓ Recognition of prior achievement
- ✓ Recognition of prior learning
- ✓ Witness testimony

LO1	AC1.1	AC1.2	AC1.3	AC1.4
Understand the discipline of air freight forwarding operations	Describe the correct documentation in association with air freight forwarding	Describe the conditions of contract and the air way bill	Discuss the use of aircraft unit load devices in accordance with the International Air Transport Association (IATA)	Describe the air cargo claims procedures in accordance with the Warsaw Convention and The Hague Amendment
LO2	AC2.1			
Understand the discipline of sea freight forwarding operations	Explain the operational effectiveness and competitive strategy in shipping			
LO3	AC3.1	AC3.2		
Understand the concept of an agile port	Explain the characteristics of an agile port	Discuss the implementation model for creating an agile port		
LO4	AC4.1	AC4.2	AC4.3	
Understand the discipline of multimodal transportation.	Describe what is meant by the term Multimodal transportation and explain the facilities of a multimodal terminal	Discuss the processes and physical flows in the container transport chain within own country	Discuss the performance levels of container terminals	

## D/508/4279 International Trade Management

Unit Status Group B

Unit Level 5

Credit Value 10

Unit Learning hours 10

#### **Assessment and Grading of This Unit**

This unit is graded on a pass or fail basis and the learner must demonstrate evidence against all of the listed assessment criteria in order to achieve this unit.

- ✓ Product evidence
- ✓ Learner statement/case study
- ✓ Pre-approved worksheets
- ✓ Professional discussion
- ✓ Recognition of prior achievement
- ✓ Recognition of prior learning
- ✓ Witness testimony

LO1	AC1.1	AC1.2	
Understand the rules and regulations of international trade management in the context of an organisation's global strategy	Describe the rules and regulations of international trade management relevant to supply chain operations	Discuss the impact of the international trade management rules and regulations in relation to an organisation's global strategy	
LO2	AC2.1	AC2.2	
Understand the key features of a successful global strategy	Discuss international supply strategies and structures for a global strategy	Describe strategies for corporate management	
LO3	AC3.1	AC3.2	AC3.3
Understand the importance of international financial strategies and the risk associated with multi-currency trading	Explain three suitable sources of trade finance	Describe multi-currency transactions and the associated risks in international trade	Describe how to develop strategies for the management of financial risk

## F/508/4307 Transport Planning

Unit Status Group B

Unit Level 5

Credit Value 10

Unit Learning hours 10

## **Assessment and Grading of This Unit**

This unit is graded on a pass or fail basis and the learner must demonstrate evidence against all of the listed assessment criteria in order to achieve this unit.

- ✓ Product evidence
- ✓ Learner statement/case study
- ✓ Pre-approved worksheets
- ✓ Professional discussion
- ✓ Recognition of prior achievement
- ✓ Recognition of prior learning
- ✓ Witness testimony

LO1	AC1.1	AC1.2	AC1.3	AC1.4	AC1.5
Understand the nature and purpose of transport planning	Analyse the demand for transport	Evaluate access and mobility issues within transport planning	Explain the stages of transport planning	Explain the requirements of the Vehicle Drivers (Certificate of Professional Competence) Regulations and Competent Authority	Evaluate current legislative and regulatory requirements, and codes of practice
LO2	AC2.1	AC2.2	AC2.3		
Understand the causes of demand for movement	Discuss the current demand for transport	Evaluate the factors that influence transport demand	Analyse sources of data on travel behaviour for past and forecasted trends		
LO3	AC3.1	AC3.2			
Understand the characteristics and constraints of transport modes	Discuss the suitability of different modes of transport	Describe the principles of integration within and between different transport modes			
LO4	AC4.1	AC4.2	AC4.3		
Understand the rules and regulations relating to road transport	Evaluate the rules and obligations arising from the Convention on the Contract for the International Carriage of Goods by Road (CMR)	Evaluate the relevance of insurance and compensation	Identify the rules applicable to driving time, rest periods and working time		

# J/508/4292 Master Scheduling Techniques

Unit Status Group B

Unit Level 5

Credit Value 10

Unit Learning hours 10

#### **Assessment and Grading of This Unit**

This unit is graded on a pass or fail basis and the learner must demonstrate evidence against all of the listed assessment criteria in order to achieve this unit.

- ✓ Product evidence
- ✓ Learner statement/case study
- ✓ Pre-approved worksheets
- ✓ Professional discussion
- ✓ Recognition of prior achievement
- ✓ Recognition of prior learning
- ✓ Witness testimony

LO1	AC1.1	AC1.2	
Understand the purpose and principles of Master Scheduling Techniques (MST)	Explain the purpose and principles of Master Scheduling Techniques	Discuss how the use of Master Scheduling Techniques can contribute to competitive advantage	
LO2	AC2.1	AC2.2	AC2.3
Understand the scope of Master Scheduling Techniques (MST)	Discuss the application of Master Scheduling Techniques in an organisation	Discuss the advantages of Master Scheduling Techniques for an organisation	Explain the development potential of Master Scheduling Techniques within an organisation
LO3	AC3.1	AC3.2	AC3.3
Understand the reasons for monitoring and controlling Master Scheduling Techniques (MST)	Discuss the importance of monitoring and controlling Master Scheduling Techniques	Explain the methods that can be used for the monitoring and controlling of Master Scheduling Techniques	Discuss the advantages of effective monitoring and control of Master Scheduling Techniques

# J/508/4325 Environmental Issues in Manufacturing

Unit Status Group B

Unit Level 5

Credit Value 10

Unit Learning hours 10

#### **Assessment and Grading of This Unit**

This unit is graded on a pass or fail basis and the learner must demonstrate evidence against all of the listed assessment criteria in order to achieve this unit.

- ✓ Product evidence
- ✓ Learner statement/case study
- ✓ Pre-approved worksheets
- ✓ Professional discussion
- ✓ Recognition of prior achievement
- ✓ Recognition of prior learning
- ✓ Witness testimony

LO1	AC1.1			
Understand the environmental issues in manufacturing	Describe what is meant by environmental issues in relation to manufacturing using examples where appropriate			
LO2	AC2.1	AC2.2	AC2.3	
Understand the factors that influence environmental issues in manufacturing	Describe the policies within an organisation in relation to environmental issues	Explain the advantages of an organisation having such policies	Discuss the impact of key performance indicators (KPIs) in dealing with environmental issues	
LO3	AC3.1	AC3.2	AC3.3	AC3.4
Understand the importance of organisational infrastructure requirements for environmental issues in manufacturing	Explain the infrastructural requirements in dealing with environmental issues within an organisation	Explain the importance of the infrastructural requirements identified in AC 3.1	Explain the equipment requirements in order to deal with environmental issues within manufacturing	Explain the importance of the equipment requirements identified in AC 3.3
LO4	AC4.1	AC4.2	AC4.3	
Understand the importance of monitoring and controlling the impact of manufacturing on the environment	Explain the importance of monitoring performance in relation to environmental issues in manufacturing	Evaluate how to select the best techniques to monitor performance in relation to environmental issues in manufacturing	Explain the benefits of effective operational performance in relation to environmental issues	

## F/508/4310 Contracting in the Public Sector

Unit Status Group B

Unit Level 5

Credit Value 10

Unit Learning hours 10

#### **Assessment and Grading of This Unit**

This unit is graded on a pass or fail basis and the learner must demonstrate evidence against all of the listed assessment criteria in order to achieve this unit.

- ✓ Product evidence
- ✓ Learner statement/case study
- ✓ Pre-approved worksheets
- ✓ Professional discussion
- ✓ Recognition of prior achievement
- ✓ Recognition of prior learning
- ✓ Witness testimony

LO1	AC1.1	AC1.2	AC1.3	AC1.4
Understand the Different Types of Contracts	Identify the different types of contracts.	Describe a Typical Contract management procedures.	Describe the legal and regulatory requirements for governing contracts.	Identify ways in which to build relationships with contractors.
LO2	AC2.1	AC2.2	AC2.3	AC2.4
Understand Processes to Monitor and Evaluate the Performance of Contractors.	Describe the procedures involved for communicating with contractors and other stakeholders.	Identify Procedures with Contractors for performance monitoring.	Identify legal and regulatory requirements for Contractor Compliance.	Describe the procedures for the evaluation of contractors.

# L/508/4309 Marketing for Purchasers

Unit Status Group B

Unit Level 5

Credit Value 10

Unit Learning hours 10

#### **Assessment and Grading of This Unit**

This unit is graded on a pass or fail basis and the learner must demonstrate evidence against all of the listed assessment criteria in order to achieve this unit.

- ✓ Product evidence
- ✓ Learner statement/case study
- ✓ Pre-approved worksheets
- ✓ Professional discussion
- ✓ Recognition of prior achievement
- ✓ Recognition of prior learning
- ✓ Witness testimony

LO1	AC1.1	AC1.2	AC1.3
Understand the Role of Marketing in an Organisation	Describe the role of Marketing in a Typical Organisation.	Identify how marketing principles achieve organisational aims and objectives.	Explain the Development of a Marketing Strategy.
LO2	AC2.1	AC2.2	AC2.3
Understand the Analysis of Marketing Information	Evaluate the Different Methods of Market Research.	Identify the elements of a sourcing plan.	Identify the benefits of Marketing Information Systems
LO3	AC3.1	AC3.2	AC3.3
Understand the Components of the Marketing Mix	Evaluate the use of the 7Ps within the Marketing Mix.	Describe the purpose of a marketing partnership	Describe Product Strategy and Categorisation

# J/508/4311 The Machinery of Government and Procurement

Unit Status Group B

Unit Level 5

Credit Value 10

Unit Learning hours 10

#### **Assessment and Grading of This Unit**

This unit is graded on a pass or fail basis and the learner must demonstrate evidence against all of the listed assessment criteria in order to achieve this unit.

- ✓ Product evidence
- ✓ Learner statement/case study
- ✓ Pre-approved worksheets
- ✓ Professional discussion
- ✓ Recognition of prior achievement
- ✓ Recognition of prior learning
- ✓ Witness testimony

LO1	AC1.1	AC1.2	AC1.3	
Understand the Drivers and Decision Makers of Central and Local Government.	Identify Drivers and Decision Makers of Central and Local Government.	Evaluate the impact of Public Sector Procurement.	Evaluate Procurement used for Political Purposes.	
LO2	AC2.1	AC2.2	AC2.3	
Understand Available Measures for Protecting Against Fraud.	Explain the Nature of Procurement Fraud.	Identify the Key Risks and Methods to Mitigate them.	Describe the Investigative Framework.	
LO3	AC3.1	AC3.2	AC3.3	AC3.4
Understand Financial Accountability for Procurement Policy and Practice.	Describe the Purpose of a Procurement Policy Manual.	Explain Evaluation Criteria for a Procurement Policy Manual.	Explain What is meant by Ethical Procurement.	Describe Performance Management and Measurement.

## L/508/4326 International Trade Finance

Unit Status Group B

Unit Level 5

Credit Value 10

Unit Learning hours 10

#### Assessment and Grading of This Unit

This unit is graded on a pass or fail basis and the learner must demonstrate evidence against all of the listed assessment criteria in order to achieve this unit.

- ✓ Product evidence
- ✓ Learner statement/case study
- ✓ Pre-approved worksheets
- ✓ Professional discussion
- ✓ Recognition of prior achievement
- ✓ Recognition of prior learning
- ✓ Witness testimony

LO1	AC1.1	AC1.2
Understand the principles of international trade finance	Explain the importance of international trade finance	Discuss how the principles of international trade finance might contribute to competitive advantage
LO2	AC2.1	AC2.2
Understand the concepts associated with international trade finance	Explain the concepts associated with international trade finance	Describe the integration of concepts within an organisational context
LO3	AC3.1	
Understand the importance of international trade finance within an organisational context	Explain the importance and implications of international trade finance within an organisational context	
LO4	AC4.1	AC4.2
Understand the importance of monitoring and controlling international trade finance within an organisational context	Describe the methods of monitoring and controlling international trade finance	Explain the importance of monitoring and controlling international trade finance

# R/508/4327 International Trade Law

Unit Status Group B

Unit Level 5

Credit Value 10

Unit Learning hours 10

#### Assessment and Grading of This Unit

This unit is graded on a pass or fail basis and the learner must demonstrate evidence against all of the listed assessment criteria in order to achieve this unit.

- ✓ Product evidence
- ✓ Learner statement/case study
- ✓ Pre-approved worksheets
- ✓ Professional discussion
- ✓ Recognition of prior achievement
- ✓ Recognition of prior learning
- ✓ Witness testimony

LO1	AC1.1	AC1.2	
Understand the principles of international trade law	Explain the purpose of international trade law	Discuss how the principles of international trade law might contribute to competitive advantage	
LO2	AC2.1	AC2.2	
Understand the concepts associated with international trade law	Evaluate the concepts associated with international trade law	Discuss the integration of concepts within an organisational context	
LO3	AC3.1	AC3.2	
Understand the importance of international trade law within an organisational context	Explain the importance of international trade law within an organisational context	Analyse the implications of international trade law within an organisational context	
LO4	AC4.1	AC4.2	AC4.3
Understand the importance of monitoring international trade law within an organisational context	Explain the methods of monitoring developments within international trade law	Explain the importance of monitoring developments in international trade law	Propose recommendations for the monitoring of developments within international trade law appropriate to an organisation

#### Annex

The following pages provide documentation supplied for your use in the delivery of this qualification. We do not mandate the use of this documentation but if you choose to not make use of it then it is expected that you have the necessary documentation in place which meets the minimum requirements in order to allow delivery to take place in an effective and efficient manner.

# Learner Registration Form
